Inquiry on 11/20/2016 :

Inquiry:

Dear Sir,

Here has a controller that is very small (please see the size of it in attachment) and the FCC ID is 2AIOM096362994576, the controller is too small to show the FCC ID, please advise can we put the FCC ID in user manual instead of the controller.

Thank you.

FCC response on 11/21/2016

If the device is unquestionably too small for the FCC ID to be readable (smaller than 4-6 points), the FCC ID may be placed in the user manual. However, it must be determined that the device itself is too small – the label area allocated to the FCC ID may not be reduced because of over crowded identification of other product and regulatory information.
